

COVID-19: Recommended PPE per setting and context

The below table summarises the minimum required PPE dependent to workplace setting and context within setting. Note this PPE guidance does not replace existing PPE requirements provided in JR&Co task based RAMS. Appropriate PPE to task should always be selected alongside these minimum requirements below. You should also refer to Customer Risk Assessments as their requirements might be greater than the guidance listed below.

Setting	Context	Disposable Gloves	Disposable Plastic Apron	Disposable Surgical Facial Mask	FFP2 Disposable Facial Masks	Reusable Facial Mask	Reusable Eye Safety Goggles
		Single use and dispose immediately after use. Hand wash before and after use	Single use and dispose immediately after use. Hand wash before and after use	Single use and dispose immediately after use. Hand wash before and after use	Single use and dispose immediately after use. Hand wash before and after use	Reusable provided appropriate laundry after use is completed. Hands should be washed before and after application	Wash hands prior and after use. Ensure Goggles are suitably checked, cleaned and disinfected after use
Transport to and from site	Individual employee request and planned action should facial masks become mandatory for work transport activity	✗	✗	✓ <small>*Either reusable or surgical</small>	✗	✓ <small>*Either reusable or surgical</small>	✗
Lower risk profile sites (standard office & education)	Routine cleaning – <i>as per JR&Co policy gloves and uniform should be worn at all times for cleaning activity. Also at employee's discretion if they would like a surgical facial mask or will use a reusable facial mask</i>	✓	✗	✓ <small>*Either reusable or surgical</small>	✗	✓ <small>*Either reusable or surgical</small>	✗
	Any confirmed or suspected case provided the operatives are able to socially distance from outbreak area	✓	✗	✓	✗	✗	✗
	Outbreak deep cleaning following confirmed or suspected case or any scenario where regular operatives can not socially distance from outbreak area	✓	✓	✗	✓	✗	✓
Higher risk profile sites (social housing, Primary Care Centres, Hospices, etc).	Routine cleaning – <i>as per JR&Co policy gloves and uniform should be worn at all times for cleaning activity. Disposable surgical face masks should also be worn and changed regularly when working in higher risk sites</i>	✓	✗	✓ <small>*Either reusable or surgical</small>	✗	✓ <small>*Either reusable or surgical</small>	✗
	Any confirmed or suspected case	✓	✓	✗	✓	✗	✓
	Outbreak deep cleaning following confirmed or suspected case	✓	✓	✗	✓	✗	✓
